

Save Measurement

Q: How do I save image with measurement information?

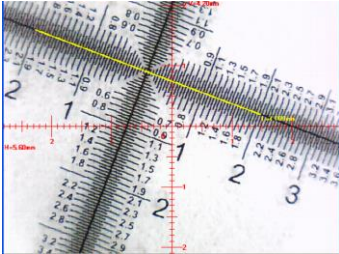

A: There are two ways to save measurement with image.

(a) Save only measurement with image

1. Choose measurement function

2. Draw mark or lines

3. Press “Copy to Clipboard” button.

4. Press “Snapshot” button.

(b) Press “SAVE” button

If you press SAVE, Image with measurement and measurement file will saved at the same time.

If you want to know how save measurement information, please refer to “Excel export function” file
